Professional Profile

- **Freelance Web Developer Experience:**
Worked on-demand for custom web projects, demonstrating adaptability to new frameworks and technologies quickly to meet client requirements.
- **Cybersecurity Involvement:**
Currently an active competitor representing Tecnológico de Monterrey in Capture The Flag (CTF) competitions, continuously improving skills in ethical hacking and problem-solving.

Education

Instituto Tecnológico y de Estudios Superiores de Monterrey - GPA: 90/100 2023 – 2027
Bachelor of Engineering in Computational Technologies (In Progress)

- **Relevant Coursework:** Object-Oriented Programming (TC-1030), Data Structures Programming (TC-1031), Mathematical Modeling and Systems Simulation (TC-1032), Statistical Analysis, Requirements Analysis for Information Systems.

Projects

- **Learning Platform for Whirlpool (Academic Project)**
React JS, Tailwind, Unity
Developed as part of a collaboration with Whirlpool. Specialized in building the admin dashboard using React JS and Tailwind CSS, integrating dynamic user management and analytics tools.
- **Circuito Tec Mobile App**
Kotlin Multiplatform, Google Maps SDK
Developed an Android application to assist students in navigating the university circuit. Focused on UX/UI design using Kotlin and Google libraries to integrate map-based features.
- **Q-Learning Robot Simulation**
Python, Unity
Implemented a Q-Learning algorithm to train simulated factory robots arranging boxes in a warehouse. Focused on logic development using brute-force pathfinding algorithms and contributed to Unity-based visualization.

Technical Skills

- **Programming Languages:**
 - Python (Advanced)
 - C++ (Intermediate)
 - JavaScript (Advanced)
 - Kotlin (Intermediate)
 - PHP (Basic)
 - SQL (Intermediate)
 - **Web & Software Development:** React JS, HTML5, CSS, Tailwind, AngularJS, Firebase, Git
 - **Tools & Frameworks:** Unity, Arduino, GitHub, Figma, Office 365
- **Languages:**
 - English (Fluent)
 - Spanish (Native)
 - **Soft Skills:**
 - Strong leadership and teamwork capabilities.
 - Excellent problem-solving and adaptability skills.
 - Effective communicator across multidisciplinary teams.
 - Proactive, detail-oriented, and results-driven.
